SKILLS

- **Agentic Workflows** — Expertise in prompt engineering and AI integration for design, coding, and content generation; continuously implementing new tools to accelerate creative and technical output
- **Interactive Design & Front-End Development** — AI-assisted rapid prototyping and development of responsive emails, fully functional websites, and interactive forms using HTML/CSS and scripts
- **Email & Marketing Platforms** — Designing, developing, and executing branded campaigns within CRMs, including Oracle Eloqua, Mailchimp, and Salesforce Marketing Cloud
- **Design Best Practices** — Fluency in visual hierarchy, typography, branding, color theory, and layout
- **Design & AI Tools** — Adobe Creative Suite (InDesign, Illustrator, Photoshop, After Effects), Figma, Cursor, and a rotating stack of LLMs and generative tools

TECHNICAL DESIGN LEAD – PRESENT STUDIOS

2022 – PRESENT

Proposed and established the Technical Design Lead role after identifying rising client demand for interactive deliverables; shifted from traditional design to leading technical projects, leveraging AI tools to build fully functional, responsive web experiences

- Pioneered agentic (AI-assisted) coding workflows to move beyond static deliverables; now prototype and deliver fully functional interactive websites, shortening development from several weeks to just a few hours
- Created the role to meet client demand for dynamic experiences; now lead responsive HTML emails, CRM-integrated landing pages, interactive forms, and complex marketing collateral, expanding agency capabilities with seamless, cross-device solutions
- Partnered with clients and internal team to transform static concepts into engaging interactive experiences; advocated for web-based strategy, consistently improving project outcomes and client satisfaction
- Spearheaded evaluation and integration of emerging AI tools to fix inefficient workflows; accelerated team output while maintaining high-quality, human-centered creative standards
- Balanced creative design responsibilities with technical leadership on high-complexity projects; delivered polished, user-focused results across all engagements

GRAPHIC DESIGNER, MARKETING – BARRETT, THE HONORS COLLEGE

2018 – 2022

Grew into the lead designer and brand guardian for the marketing department, centralizing creative operations and elevating brand consistency, quality, and efficiency across all channels

- Established the department from the ground up by centralizing all design projects under my supervision, delivering a cohesive brand across social media, print, email marketing, website content, and more
- Mentored graphic design student workers through monthly design challenges, weekly critique sessions, and a culture of constructive feedback, resulting in higher-quality output and stronger team collaboration

OWNER & DESIGNER – HOT DOG DESIGN CO.

2014 – 2022

Founded a freelance graphic design & printing business in high school, serving clients in the dog sports industry

- Produced collateral for world-renowned organizations and champion teams in competitive dog sports, growing a loyal client base through word-of-mouth in the niche community
